

SIMPLIFY EMPLOYEE MANAGEMENT

Looking for a single, easy-to-use system that can handle all your timesheet, scheduling and reporting needs? TimeMoto is the cloud-based motor that powers comprehensive attendance and scheduling systems. Employees can clock in and out on any device, from any location. Advanced push technology updates all data in real time, so you instantly see who's working where right now. And because TimeMoto runs securely in the cloud, there's nothing to set up: no servers, no software, just log in and go. Employee management has never been easier.

TimeNioto

24/7 REAL-TIME STAFF PRESENCE

24/7 REAL-TIME ACCESS **IN ANY BROWSER**

ON-LOCATION CLOCKING

TimeMoto TM series push-enabled terminals offer state-of-theart fingerprint, face recognition and RFID clocking perfect for warehouse, manufacturing and office staff.

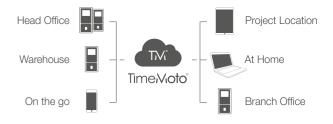

From your local warehouse to a project site in Dubai, TimeMoto lets you seamlessly manage a varied and mobile workforce through a single, streamlined interface.

DESKTOP BROWSER CLOCKING

Employees can clock in and out from any browser on any platform -perfect for clocking work time at home or any remote location.

MOBILE APP CLOCKING

The easy-to-use TimeMoto app lets employees clock time on any phone or tablet-perfect for logging hours on the road or on site with a customer.

EVERY TIME RECORD INCLUDES:

Project Code Complete Audit Trail Employee Status Timestamp Geolocation Comments

FAST, EASY AND Accurate

Whatever device you use, it only takes seconds to clock in and out. Select a project or work code and add a comment if you like, then simply press the button. Need to add time manually? No problem; you can add it in decimal or hours-andminutes format.

Your timestamp and geolocation are securely encrypted and pushed to the cloud in real time for up-to-theminute accuracy-and nothing ever gets lost. If you lose your internet connection, the data are stored locally until you're back online, then automatically pushed to the cloud.

TIME & ATTENDANCE SOLUTIONS | 11

EASILY ADD NEW SITES

Opening a new office or adding space to your warehouse? It's easy to add one or more TimeMoto terminals anywhere you need them. Simply plug the new device into your network and enable its built-in data push function. TimeMoto will automatically recognize the new device and sync all your data with it. You'll be up and running in just minutes.

ADVANCED SCHEDULING

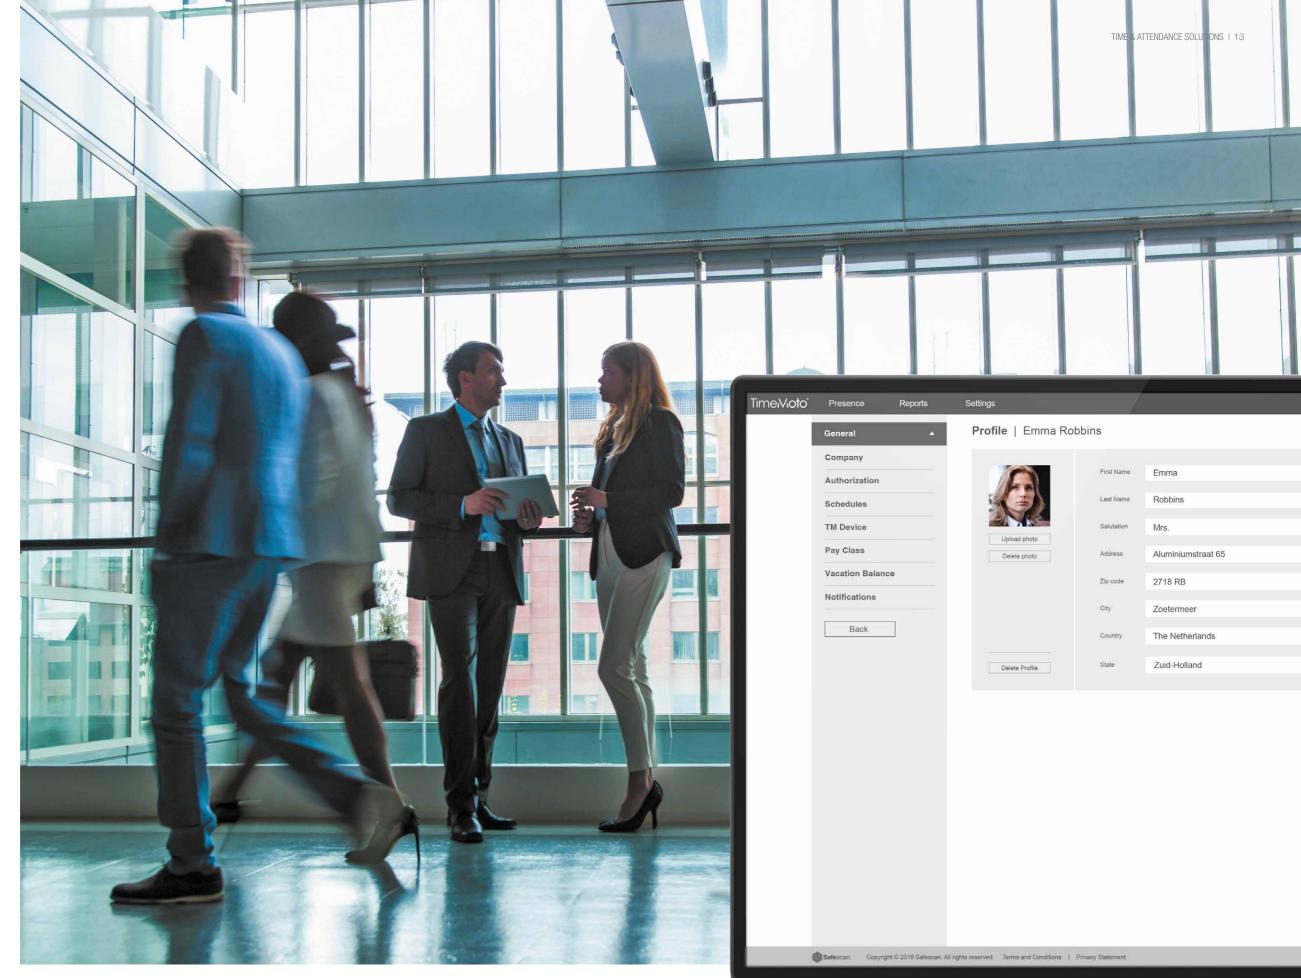

TimeMoto offers two tiers of scheduling tailored to your needs.

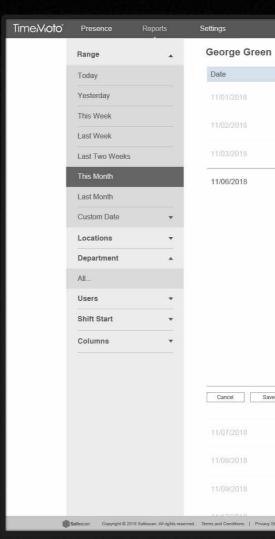

REGULAR

For companies that work standard office hours. Create multiple predefined schedules for each employee, including start and end times, breaks, days of the week and customizable rounding rules.

FLEX

For companies that work in shifts or outside standard hours. Create dynamic work schedules for all 24 hours of the day. Manage vacations, holidays, sick leave and absences. Define preset roles and shifts preferences for each employee. Cashier called in sick or fry cook running late? Flex instantly shows you who's available and qualified to cover the gap. Automatically notify employees of their upcoming shifts and changes.

INSTANT INSIGHT FOR INSTANT ACTION

TimeMoto automatically detects irregularities in employee clocking data so you can handle them when they arise. Authorized users can easily modify time records right from the staff presence screen; your reports automatically update. TimeMoto saves the new data with the original, so there's always an audit trail to follow.

IN-DEPTH REPORTING AT YOUR FINGERTIPS

Just click to review your time data by week, month, project, department, location, customer and more. Print employee timesheets right from the screen. Export your data straight to your payroll processing software, or save it in Excel or CSV format. Want to share your report? Email it to colleagues as a PDF.

PERFECT FOR EVERY INDUSTRY

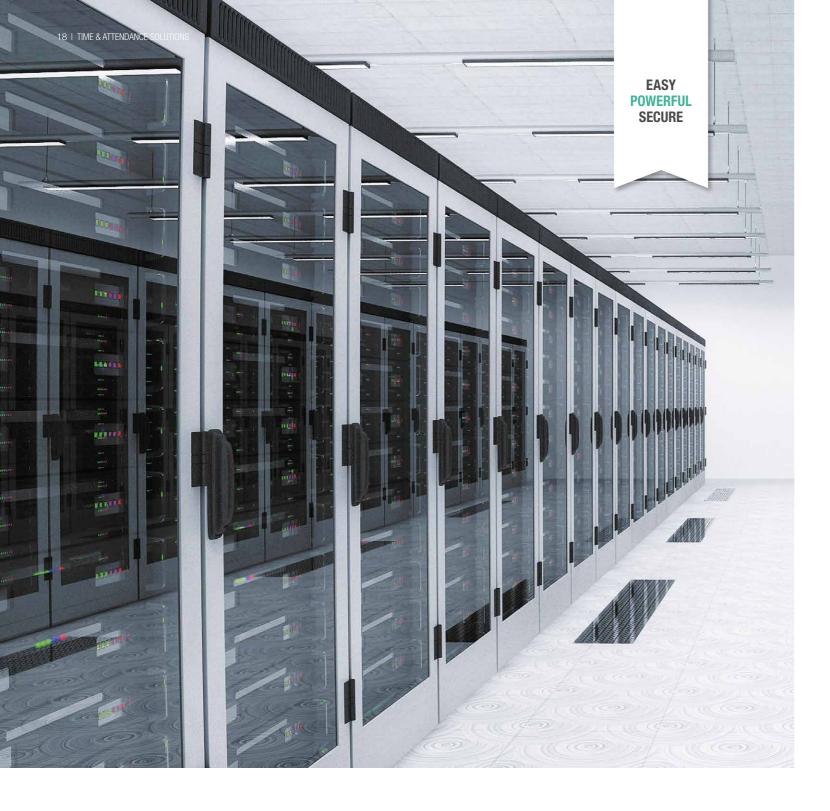

TimeMoto's power, scalability and ease of use make it an excellent solution for every industry. From hotels to hospitals, restaurants to retail chains, construction sites to car manufacturers, TimeMoto can robustly and securely handle your company's specific tracking, scheduling and reporting needs-whether you have ten employees or ten thousand.

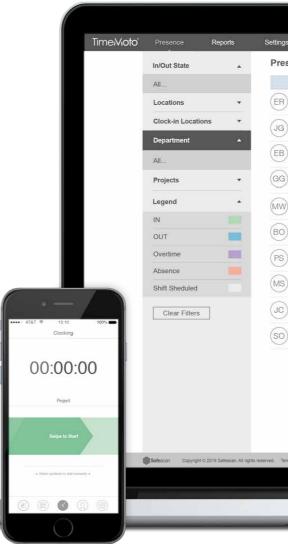

A PROVEN SOLUTION FOR COMPANIES IN:

- Construction	- Retail
- Education	- Healthcare
- Engineering	- Hospitality
- Government	- Logistics
- Packaging	- Manufacturing

- Transportation - Catering

- Real estate
- Automotive
- And more...

NOTHING TO INSTALL OR LICENSE

TimeMoto is software as a service that runs completely in the cloud. There's nothing to download, no servers to maintain, no router or firewall settings to change-just open your browser and go. You'll be up and running in minutes; no IT expertise required.

ENCRYPTED DATA, **SECURE SERVERS**

TimeMoto uses advanced security protocols to encrypt and store your data in our dedicated data centers. All information is encrypted before transfer and sent over a secure link. Our redundant storage protocol ensures you never lose data-not even if you lose your Internet connection. TimeMoto will store all new records on the local device until the connection is re-established.

LOW COST OF **OWNERSHIP**

Because TimeMoto runs in the cloud, you don't need to buy expensive servers or pay set-up and networking fees. For one pay-as-you-go subscription, TimeMoto securely collects and stores all your data in the cloud, where you have 24/7 access. What's more, you never have to buy an upgrade: you're always using the latest version.

TIMEMOTO SOFTWARE AS A SERVICE

- Clocking from any device
- Real-time attendance data from any location
- Multiple work schedules with roundings
- Overtime and absence management
- Project codes
- In-depth reporting
- Export to Excel, CSV and PDF
- Work scheduling (incl. shift and holidays)
- Notifications (absent, late)
- Export to major payroll software
- Secured by SSL SHA-2 and 256-bit AES encryption

2.8" TFT DISPLAY 1 GHZ DUAL CORE

TimeMoto's newest TM-600 time clock systems are designed to provide efficient and reliable attendance tracking for companies of up to 200 employees.

With its 2.8" TFT display, 1 GHz Dual Core processor, built-in RFID and new 500 dpi fingerprint sensor, it ensures instant authentication for up to 200 fingerprint templates. Its memory capacity stores up to 10,000 logs.

The intuitive user interface ensures installation in minutes. The tactille keyboard facilitates easy entry of project codes and allows users to check their clock times and totals directly from the device. The TM-600 series built-in Wi-Fi and its featured 'push' technology sends data to the TimeMoto Cloud in real-time, where it can be accessed and managed from any location.

SPECIFICATIONS

Up to 200 users Up to 10,000 logs Proximity RFID badge / Fingerprint / Key fob / PIN 64 MB RAM / 128 MB flash memory Wi-Fi / Ethernet (LAN) / USB Host

3.5" TFT DISPLAY 1,2 GHZ DUAL CORE TOUCH SENSE

TimeMoto's advanced TM-800 time clock systems are designed to accommodate the time attendance and workforce management requirements for companies with up to 2,000 employees.

With its 3.5" TFT display, 1,2 GHz Dual Core processor, built-in RFID and new 500 dpi fingerprint sensor, it ensures instant authentication for up to 2,000 fingerprint templates. Its memory capacity stores up to 100,000 logs. The TM-838 is equipped with dual camera 3D face recognition technology for fast and immediate user verification.

A large and intuitive user interface ensures installation in minutes. With touch sense keys, users can enter project codes and check their clock times and totals directly from the device. Built-in Wi-Fi and 'push' technology sends data to the TimeMoto Cloud in real-time, where it can be accessed and managed from any location.
